

Hi! I have lived in Texas for 6 years and have a career in Real Estate. Together, with my husband we have three children ages 16, 14, and 10 years old. They have participated in the swim team for several years. We moved to the Oaks a year ago because of the established friendships with several families in the neighborhood.

I am passionate about communication, health, technology, and giving back. I desire to improve communication between the board and community members, advocate for use of and improvement of our amenities that promote physical activities for all of us, and neighborhood improvements that could potentially increase our property values.
