
I am a licensed Professional Engineer and have been in the Civil Engineering field since graduating from Texas A&M in 1998. My primary focus has been in design and management of residential subdivisions. For the past 7.5 years I have worked for a private developer and have managed the development of subdivisions in the Texas Hill Country. For the past 2 years I have been a board member for the Johnson Ranch HOA in Bulverde. I believe my experience as a board member and experience with residential subdivision would be beneficial to maintaining our subdivision and fiscally managing our budget and expenses. I have experience with working with various trades needed to maintain our subdivision.

My wife and I, and 3 kids, have lived in this subdivision for the past 15 years and have no plans to move anywhere else.
